

THE 2020 FINANCIAL YEAR: CONFIDENT, ATTENTIVE AND BOLD AT AN EXCEPTIONAL TIME

The 2020 financial year - the results of which are detailed in this annual report - was dominated by the effects of the Covid-19 pandemic, so for us this called for a confident, attentive and value-driven approach. When the first nationwide lockdown was announced in March 2020, our priority was to remain connected to our customers. While always keeping in mind the health of our customers and employees, we fulfilled our core mission as a bank for Upper Austria: to provide liquidity to the Upper Austrian economy, to give people and companies permanent access to our financial services and to allow them to manage their business sustainably.

To this end, our customer advisers took prompt and effective action. In the first three months of the pandemic, they proactively contacted our private and corporate customers, making almost 30,000 calls. We deferred around 2,000 loans and leases far beyond the scope of the statutory moratorium, offering the simplest and most straightforward processing possible. We provided businesses in Upper Austria with bridge financing, with and without subsidies, amounting to over EUR 50 million. In other words, we open the door to money and – as a regional bank for Upper Austria – we provide the liquidity that is so necessary to the Upper Austrian economy.

To stay in touch with our customers and offer them our services and advice without limitation, we made changes to our organisation: all health and safety precautions were implemented in our branches and our opening hours were adapted to people's needs. At the same time, working from home was stepped up. The necessary logistics and technology were made possible in a very short time. We developed solutions for our customers so that they could bank with us from home. This meant that we could be reached digitally, regionally and personally at all times and could offer rapid solutions to the challenges they faced. This fast and agile way of working is also in line with our traditional proximity to customers, for which we were the only Upper Austrian bank to receive the FMVÖ Award from the Austrian Financial Marketing Association for excellent customer orientation at the start of 2020.

Since March of last year, we have been sending out important signals to the outside world: confident, attentive, connected and consistent - these are the values which we communicated to the public and thus to our customers. They are our answer to how we come out of the crisis together and stronger.

We also demonstrated these values in our regular banking business with and for the people of Upper Austria. In the residential construction segment, we made dreams come true for 1,880 of our customers. We served the people of Upper Austria as a competent partner, offering an optimal mix of holistic, personal advice and housing finance, subsidies and insurance to enable them to acquire their dream home. At the same time, we continued our gratifying growth trajectory of recent years in residential construction. In investment, too, our values are the foundation on which we enable healthy and sustainable growth – always linked to our mission to offer people and companies fair and meaningful access to the capital market. To this end, we are strongly focused on digitalisation, as a complement to the personal, human and regional banking values of VKB-Bank: In addition to the advice provided by our securities specialists, our "VKB Wertpapier CONNECT" solution allows customers to conduct execution-only securities transactions independently online. We also launched our own fund: VKB-Nachhaltigkeit-Anders. This global mixed fund is focused on sustainability and the environment, but also healthcare and screening, digitalisation, responsibility and equality. It reflects VKB's commitment to sustainability and was very well received, as can be seen from the high fund volume of over 11 million euros at year-end 2020 and the fund's performance of 2.1% from launch in November up to the end of 2020.

Our thanks go to our 600 employees who have made these results possible and who have always been there for our customers – personally, regionally and digitally. We would also like to thank the people and companies

with whom we are associated for their trust – in us and in our values of human banking. The fact that we were a strong, reliable partner during the 2020 crisis should serve to illustrate that we – as a dependable, secure and stable regional bank – will continue to ensure positive development and healthy growth for Upper Austria in the years to come.

We look forward to embracing this challenge this together with you.

Christoph Wurm Chief Executive
